

High or Low?

Name _____

You are given a product and three computations that might be used to estimate it.

For each estimation product, decide if the computation would be higher or lower than the actual answer. Explain why.

Do not do ANY computation.

$$37 \times 45$$

a) 40×50 higher lower

Explain:

b) 30×50 higher lower

Explain:

c) 35×50 higher lower

Explain:
